FOCUS ON RAILWAY TRAINING INSTITUTE

Railway Training Institute was established in 1956 as a training center for East Africa Railways and Harbours (EAR&H) staff. After the dissolution of East Africa Community in 1976, the Institute was taken over by Kenya Railways and it continued to offer specialized railway courses up to 1990 when it opened its doors to the public to train Business and Engineering courses at Higher Diploma, Diploma and Certificate levels. The Institute however is back to its mandate of building human capacity for the Rail sector.

The Institute has undergone phenomenal growth in student enrolment, diversification of courses, due to the quality of courses it offers coupled with the availability of training facilities and infrastructure. In compliance with the Ministry of Education directive, it has adopted the Competency Based Training Curricula (CBET). Other accreditations acquired over the recent years are with TVETA, KASNEB and KMA which has enabled the roll out of STCW Basic Training Course and Coxswain at the Kisumu Campus.

Rail development and operations is a unique field, which requires distinct technical skill set and continuous training overtime, to be in tandem with global technological advancement. RTI will strive to be a center for excellence in training for the Rail, and marine and associated sectors through provision of quality training and collaboration with regional and global institutions as well as the private sector. The Institute Quality Policy Statement and the requirements of ISO 9001:2015 Standard stipulates this commitment.

The 2022-2027 Railways Training Institute Strategic Plan serves as a road map that informs strategies to be deployed in the key areas of the Institute mandate for the four-year period. The plan is anchored on four (4) broad areas which include education and training, infrastructure developments, resource mobilization and branding.

During this 61st Graduation ceremony, a total of 1413 graduands are being conferred Diploma and Certificate awards, 1294No. are graduating in the TVET courses while 119 in the Rail and Marine courses
